

FILE PLANS FOR EXTENDING ROAD TO FORT SHAFTER

Rapid Transit Makes No Further Announcement of Extensions Following Meeting

Extension of the lines of the Honolulu Rapid Transit & Land Company to Fort Shafter will be made as soon as the plans, filed this morning, are approved by the superintendent of public works, according to C. G. Ballentyne, general manager of the company.

Other extensions and improvements are "up in the air." Double tracking of King street, voted at a meeting of the directors early this year, and double tracking of Kalakaua avenue and removal of the tracks to the center of the roadway will be started soon but just when or how has not yet been determined, according to Mr. Ballentyne. Worn rails are to be replaced throughout the system also.

"We plans have been formulated. We are going to make improvements, but that is about all that we know," said the manager. "The King street extension, to the top of the hill just beyond Shafter, has been planned for some time and would have been made regardless of the outcome of the case of the territory against us."

"Other improvements will be made as the result of the release of capital by the outcome of the suit, but nothing definite has been done in the matter."

Stockholders of the Honolulu Rapid Transit & Land Company will be called upon to determine whether the company shall increase its capital stock by the issuing of \$322,500 and whether the same or any part thereof shall be issued as paid up non-assessable stock to stockholders pro rata for amounts actually invested in the plan of the company in excess of outstanding issued stock. This will be done at a meeting to be held in Room 809 Shapessaw building, August 5, at 9 a.m.

At the meeting of directors held yesterday afternoon the following resolution was passed:

Voted that the directors recommend to the stockholders to increase the capital stock to \$1,600,000 by the issuing of \$322,500 of paid up, non-assessable stock to stockholders pro rata for the date of said meeting to cover in part amounts actually invested in the plan of the company in excess of outstanding issued stock which the company is authorized to issue to its stockholders under the decision of the supreme court of the Territory of Hawaii; and that the same be proportionately distributed, as provided by the by-laws of this company, fractions of shares to be sold as there is provided, and the proceeds distributed pro rata among those entitled thereto.

NEW CLOTHING EXPERT ARRIVES ON LURLINE

W. S. Lechner, a son of the oil magnate of the same name who was a well known store keeper of the early days, was a passenger on the last boat from San Francisco, returning to Honolulu to join the staff of the Ideal Clothing Store.

Lechner has spent the last nine years with the Pacific Clothing Company and Ross Brothers, both clothing stores of San Francisco. He has come back, he expects, for good, as he finds the business prospects in Honolulu better than ever before. The phenomenal success of the store which has engaged his services tends to prove his optimistic outlook.

CITY AFFAIRS AND SUPERVISOR NOTES

Payrolls were passed.

Next meeting will be Wednesday night.

Request that Harry Lake, special officer in the attorney's office, be granted a week's vacation beginning July 31 was granted.

Request of the health committee for an appropriation of \$41.75 for hose with which to wash the fish market floor was referred to the ways and means committee.

Action of the board in approving the nomination by the Chamber of Commerce of George H. Angus as a member of the Promotion Committee was rescinded last night and Angus placed in nomination by the board as the law provides.

WIFE OF WAILUKU JAILOR DIES

SUMMER SCHOOL ENDS ITS WORK, BOYS TAKE HIKE

HIGHER RATE FOR WATER IF PLAN BE CARRIED OUT

Harry Murray Says Abandonment of Use of Nuuanu Water Costly

Members of the summer school at the Y. M. C. A. held their closing banquet at Cooke hall Wednesday evening, at which time the fathers of the boys were invited to join in the evening's festivities. Musical features by V. D. Doty and original readings by Thomas Deese were features.

During the banquet the prizes were awarded to the honor pupils. Charles Van Way was awarded first prize for work in the eighth grade. Maurice McKinlay received the honor for English in the sixth grade. Charles Cassidy was awarded the prize for work in civics. Henry Judd was first in composition and Carol Horner took high honors in the seventh grade. The boys were awarded books for their excellent work.

More than 85 boys and parents were present at the meeting, and after partaking a four course dinner, the crowd adjourned to the swimming tank and gymnasium, where the youngsters showed their fathers the work that they had been doing during the summer month.

After the games and swims, Glenn E. Jackson announced the winning clubs in various athletic events. The Triple A boys were first in track, the Dragons led in the team relay, the Tigers following the example of Hughey Jennings finished ahead in baseball, and the Braves, named after the Braves of the junior league, were first in basket-ball, swimming and attendance.

Thursday afternoon the boys were guests of the association on a cruise to Pearl City on the Navajo. They returned in the evening and began their hike around the island this afternoon. R. E. Lambert, secretary of the boys' department of the Y. M. C. A., has charge of the island hike. The boys will be gone at least ten days, after which many of them will go to the summer camp on Kauai.

DECISION OF MAGISTRATE IN "KEROSENE CASE" IS REVERSED IN HIGH COURT

Holding that the district magistrate of South Hilo erred in his decision in sustaining the demurrer of the defendant in the case of the Territory vs. the Hilo Mercantile Company, the company having been charged with keeping kerosene in a building not used exclusively for explosives, the supreme court has reversed the decision and remanded the case for further proceeding.

It was alleged by the territory that the company kept and stored more than 110 gallons of kerosene in a building in Hilo not being used for the exclusive storage of such explosives and contrary to section 700 of the revised laws. The defendant demurred on the ground that the charge did not constitute a violation of the laws of the territory "in that it did not allege that the kerosene stored in the said building gave off an inflammable vapor at a temperature of 115 degrees or less."

A like decision has been made in the case of the Territory vs. T. H. Davies & Company, the charge against the defendant, having been unable to find in the foregoing case.

ROAD WORK IS DELAYED FROM LACK OF CEMENT

Three hundred bags of cement ordered for and ready loaded by the road department cannot be procured and a great deal of city work is being held up as a consequence, according to George M. Collins, city engineer. The Pali wall and road is the largest of the jobs being delayed owing to the lack of cement.
